

## Saline Medical Specialties Consent for Physical

Welcome to Saline Medical Specialties and thank you for choosing us for your medical care. Please read the information below to help you understand the insurance billing rules we must follow.

### Complete Physical/Preventative Visit

If you are scheduled for a complete physical/preventive exam with one of our providers, this visit **must** be billed to your insurance company as a physical/preventative medical visit. This visit is strictly to discuss **physical/preventative** measures that you and your provider feel are appropriate for your age and medical condition. We want to keep you in the best possible health as your healthcare is very important to us.

### Problem-focused issues and concerns

If you want to talk about additional problems or concerns today, your physical/preventive may need to be rescheduled so we are able to discuss those medical concerns separately. **Physical/preventative exams are just that...physical/preventative. Insurance will not allow physicals/preventative exams to be billed with any additional problems.** We are looking out for you and any additional cost that you may incur as a result of addressing additional medical concerns at your physical/preventative exam.

When documenting the detail of your visit, Providers assign specific codes according to the services he/she provides. The provider cannot alter the coding submitted to your insurance in order for your insurance carrier to make payment.

It is your responsibility to check with your insurance carrier to confirm what physical/preventative tests are covered.

If you have any questions or concerns about the above information, please check with the front desk or with the clinical staff when they bring you back for your appointment.

Please sign below to state that you have read the above statement.
